

Best/Worst Day Update

27 March 2017 While the future of health care in America was being debated in Congress the sector dominated the weak Top 10 for the day on Friday. Health Care took six of the ten spots available with a top gain of 9.65% in Community Health Systems [CYH]. It was nice to see Frontier Communication Systems [FTR] at #2 posting 7.73% for the day. Capitalization was mixed with representation from all three categories.

The bottom 10 was dominated by small cap stocks but, without any clear sector being depressed. It was a broad coverage from six of the ten sectors. Retail did take the biggest hit with Finish Line [FINL] and Gamestop [GME] at #1 and #2, respectively.

Overall, losses were greater than gains.
